FREE Books!

The Outdoors Tomorrow Foundation is working with the Conklin Foundation to provide the Outdoor Adventures' students with a factual book about hunting. Craig Boddington is a well known author and TV personality. His book, Hunting...What Youth Need to Know is based on scientific fact and the American Model for Wildlife Conservation. Copies of the book will be shipped to schools between June and September 2019.

Several years ago, the OTF sent copies of these books to many of the Outdoor Adventures schools. The OA teachers reported the books were very well received. Feel free to give every student a copy of the book this fall. Feel free to keep a class set to be used for many years.

The Conklin Endowment Fund and the Conklin Foundation are leading the way to make a difference to help young people with facts and information about our hunting heritage and the ability to hunt in the future. The investments of the Conklin Endowment Fund and the Conklin Foundation for the last several years, and for a time to come, have centered on books for youths, paying for printing, shipping, and giving these books to youths across America free of charge.
